TARIFF FORMAT

A. Sheet Numbering - Sheet numbers appear in the upper right corner of the page. Sheets are numbered sequentially. However, new sheets are occasionally added to the tariff. When a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.

B. Sheet Revision Numbers - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd revised Sheet 14. Because of various suspension periods, deferrals, etc., the Commission follows in their tariff approval process; the most current sheet number on file with the Commission is not always the tariff page in effect. Consult the Check Sheet for the sheet currently in effect.

C. Paragraph Numbering Sequence - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

2.
2.1.
2.1.1.
2.1.1.A.
2.1.1.A.1.
2.1.1.A.1.(a).
2.1.1.A.1.(a).I.
2.1.1.A.1.(a).I.(i).
2.1.1.A.1.(a).I.(i).(1).

D. Check Sheets - When a tariff filing is made with the Commission, an updated check sheet accompanies the tariff filing. The check sheet lists the sheets contained in the tariff, with a cross reference to the current revision number. When new pages are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this page if these are the only changes made to it (i.e., the format, etc. remains the same, just revised revision levels on some pages). The tariff user should refer to the latest check sheet to find out if a particular sheet is the most current on file with the Commission.

Any taxes imposed by a local jurisdiction (e.g., county and municipal) will only be recovered from those Customers residing in the affected jurisdictions.

Certain local exchange services, as defined in the Pennsylvania Code, are subject to state sales tax at the prevailing tax rates, if the services originate, or terminate in Pennsylvania, or both, and are charged to a subscriber's telephone number or account in Pennsylvania.

SECTION 2 - RULES AND REGULATIONS (CONT'D)**2.7 Payment Arrangements (Cont'd)****2.7.2 Billing and Collection of Charges (Cont'd)**

- 2.7.2.C When service does not begin on the first day of the billing period, or end of the last day of the billing period, the charge for the fraction of the billing period in which service was furnished will be calculated on a pro rata basis. For this purpose, every billing period is considered to have thirty (30) days.
- 2.7.2.D Billing of the Customer by the Company will begin on the Service Commencement Date, which is the day on which the Company notifies the Customer that the service or facility is available for use, except that the Service Commencement Date may be postponed by mutual agreement of the parties, or if the service or facility does not conform to standards set forth in this Tariff or the Service Order. Billing accrues through and includes the day that the service, circuit, arrangement or component is discontinued.
- 2.7.2.E A penalty cannot be applied to a prior penalty amount.
- 2.7.2.F If any portion of the payment is not received by the Company within 21 days of receipt of this bill, or if any portion of the payment is received by the Company in funds which are not immediately available upon presentment, then a late payment charge of 1.5% per month on unpaid balance for business customers and 1.25% per month on the unpaid balance for residential customers, shall be due to the Company. SECTION 2 - RULES AND REGULATIONS (CONT'D)**2.7 Payment Arrangements (Cont'd)****2.7.3 Billing Disputes****2.7.3.A General**

All bills are presumed accurate, and shall be binding on the Customer unless notice of the disputed charge(s) is received either orally or in writing from the Customer by the Company. The Customer should provide sufficient documentation to investigate the dispute, including the account number under which the bill has been rendered, the date of the bill, and the specific items on the bill being disputed.

Suspension or termination is prohibited until the resolution of the dispute. The undisputed portions of the bill must be paid by the payment due date to avoid assessment of a late payment charge on the undisputed amount.

In the event that a billing dispute is resolved by the Company in favor of the Customer, any disputed amount withheld pending resolution of the billing dispute shall not be subject to the late payment charge.

SECTION 5 – RATES**5.1 Application of Rates**

The Company may institute volume and term arrangements, which involve discounts on recurring charges, or discounts or waivers of non-recurring charges. Discounts based on volume, term, or promotional arrangements will be available on arrangements where the Customer commits to a term contract of one year or longer.

Nonrecurring and monthly recurring charges apply for each Service furnished by the Company. Monthly recurring charges vary according to the time period for which the Customer commits to take the Service. Unless otherwise noted, these standard rate elements are used in calculating the monthly recurring charge for Services.

Because Type II Service prices are dependent upon another Service Provider's facilities, Type II Service will be provided at the discretion of the Company and priced on an Individual Case Basis, applied in a nondiscriminatory manner.

Transport Channel - Fixed

This rate element applies per channel for the transmission facility between the POPs associated with two Customer Premises, between a POP associated with the Customer Premises and a Company Point of Termination, or between two Company Points of Termination.

Variable Mileage

This rate element applies per channel for the number of miles (interoffice miles) between the two POPs that serve the terminal locations. Fractions of a mile are rounded up to the next whole mile before rates are applied.
